

Date: 26/11/2018

No: 2018/112313

Dear Sir,

Our Company partners and employees have serious and long-term contracting and engineering experience in the construction industry.

Our fields of study and expertise; Complete Commitment Works, Infrastructure and Landscaping Works, tunnel excavation and plating, bridges and intersection works and mainly Hydroelectric Power Plants Art Structures works.

Our company has been working as a company and as the company of our company, so many different infrastructure and superstructure projects have been realized with the self-confidence.

As per our basic quality policies, we undertake the works we undertake; project, application, temporary acceptance, final acceptance stages, until the completion of the work at all stages according to international norms are followed. We provide service for those who know the business and who want to do the job first hand.

One day with the wishing to work together,

Baran Bayuk

M.sc. Civil Engineer
